

## Market Leaders in Air Filtration, Odour Control and VOC Abatement

We design, manufacture and supply competitively priced, standard and bespoke Air Filtration and Liquid Filters for the Industrial, Commercial, Educational, and Residential marketplace.

### AAC PR™ Carbon Filters

Our Carbon Filters are designed for applications that demand high-performance Odour Control, VOC Abatement and Air Filtration including: Commercial Kitchen Extraction Systems, Wastewater and Sewage Treatment, Waste Recycling and Waste Transfer Stations, Biogas Plants, Food Processing Plants, Abattoirs' and Blood Tanks, Museums and Galleries, Airport Terminal Buildings and many more.

### Carbon Filter Products

We offer competitively priced Carbon Filter Housings, Carbon Filters for Air Handling Units utilising the AAC Swiftkit and Skeleton frame system, Bulk Filters, Passive Vents, Drum Filters, and Carbon Canisters.

### High Performance Indoor Air NO<sub>2</sub> Filters

### AAC Equinox® NO<sub>2</sub> Monitoring System

AAC Equinox® provides end users with a remote analysis of the status of the installed AAC NITROSORB® media, and includes set point alarms to provide media replacement alerts.

AAC NITROSORB® is widely specified by Mechanical Consultants and offers effective and sustainable NO<sub>2</sub> mitigation for indoor air quality projects in the Residential, Commercial, and Educational sectors, where there is a requirement to comply with the **EU Directive 2008/50/EC (the CAFE Directive) European Union Air Quality and Clean Air for Europe 2008.**

### AAC Colourcell® Media Filter System

AAC Colourcell® Media Filter System provides the end user with a visual indication of the installed Activated Carbon.

### Carbon Filter Services

We also offer a low-cost Carbon Filter Media Replacement and Media Disposal Service.

### Ozone Based Odour Control for Commercial Kitchens

The Xtract 2100™ delivers effective Odour Control for Commercial Kitchen extraction canopies and ductwork systems.

**We can also supply a full range of competitively priced Electrostatic Precipitators, Bag Filters, Pleated Panel Filters and HEPA Filters.**
