

# Today's essential building materials.

Building Automation from Beckhoff.

How to build flexibly:  
with concrete.

How to build traditionally:  
with bricks.

How to build intelligently:  
with automation components  
from Beckhoff.

How to build safely:  
with steel.

## [www.beckhoff.co.uk/building](http://www.beckhoff.co.uk/building)

With integrated building automation from Beckhoff you can create a compact PC-based control solution that meets the requirements of BS EN 15232 energy efficiency class A. All building functions can be controlled with a single, integrated system. Functional changes and expansions are simply implemented in software, ensuring complete automation synergy. The result: the potential for up to 30% energy savings for new buildings and refurbishments.

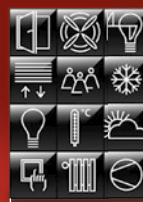

The integrated automation solution from Beckhoff:

Flexible touch operation

Scalable control technology  
Modular I/O Bus Terminals

Modular software libraries
