

New Space Saving Air Filters from EMCEL

In order to fit the compact access needs in New Buildings EMCEL has designed a range of Hinged Fan Coil Elements. This allows replacement filter elements to be easily fed into position, offering space, time and cost savings during maintenance.

Our NEW design capabilities offer a range of sizes and shapes designed to suit any existing application or unit.

EMCEL can offer Fan Coil Elements in:

- **Any Size**
- **Any Shape**
- **UL94 V-0 Rated Products**
- **BS EN ISO 16890**
- **Cleanable Options**

Contact our Technical Sales Team for information on how EMCEL can help take the hassle out of maintaining your Fan Coil Unit and for any other Air Filtration requirements.
