

HEATRAESADIA

SMARTER | CLEANER | WARMER

We are a market-leading UK based water heating and electric boiler manufacturer specialising in commercial and domestic hot water systems, drinking water solutions, hand hygiene and renewables.

Our extensive research and development ensure our products are at the forefront of energy efficiency, performance and reliability. Designed and made in the UK to our own demanding standards of performance, safety and quality, our products provide the perfect balance of control and comfort whatever the application. As you would expect, all are backed by our friendly customer support team and a nationwide network of technical sales specialists and aftersales engineers.
