

KLIMA - THERM

A growing influence in workplace climate control

With the industry's widest range of air-conditioning and refrigeration equipment, Klima-Therm will offer a solution that works for you, your building and your budget.

Klima-Therm have been providing a portfolio of air conditioning, heating and air movement products to the Building Services Industry for over thirty years along with technical back-up service and maintenance.

Our products are well-designed, versatile, efficient and very competitive.

Klima-Therm has a reputation for high quality, ultra high efficiency chillers, air handing units, fan coil units, chilled beams and VAV units. We look forward to working with you.
