FloCon Watchman
Ongoing Commissioning

FloCon™

We are trusted providers of heating and ventilation solutions. From the very beginning, we have been constantly pushing the industry and collaborate with the best partners, creating even better systems and smarter solutions, and raising the standards towards a brighter and more sustainable future.

Trust is one of the most important parts of our business, because people rely on us for advice and we are there – before, during and after project handover.

Through our CIBSE accredited CPD sessions, we share the skills and knowledge we have acquired over the years. Our people have the right attitude and the right energy, and we are proud to be able to transfer our insights to the industry.
