

Celcius T3 ECO HIU

The latest innovation in Heat Interface Units

Designed for modern community and district heating schemes and to CIBSE Code of Practice guidelines; the Celcius T3 ECO HIU provides full connectivity for landlords and uninterrupted service for residents.

Features

Integrated heat meter
Two-way communication
Pay-as-you-go enabled
Electronic control
Highly insulated

Configurable stay warm function
Lightweight and compact
Cost effective set up
Remote diagnostics

Connected with remote configuration

- Receive fault alerts
- Diagnose faults remotely (available in 2018)
- Modify and update settings remotely
- Underfloor heating and radiator optimised configuration

Improves efficiency

- Hot water priority included as standard
- Low return temperature, as per CIBSE CP1
- Modulating temperature control
- Compliant with Energy Related Products (ERP) Directive
- Designed for BESA high performance

Flexible solution

- First fix jig – first fix pipe connection and wiring, optional flushing bypass
- Easy to install
- Multi-connections for every eventuality
- Components can be serviced from the front of the unit
- Cost effective set up
