

PROVEN INSULATION SOLUTIONS FOR HVAC

Glass wool solutions for pipes and ductwork, to help ensure the building is thermally protected, fire safe and has minimal noise disruption.

CLIMPIPE

Lightweight pre-formed 'snap on' sections for pipe insulation, with a reinforced aluminium foil facing.

CLIMCOVER ROLLS

Provide a lightweight and cost effective thermal and acoustic insulation for all shapes of metal ductwork.

CLIMCOVER SLABS

Lightweight, rigid glass wool slabs providing thermal and acoustic insulation for rectangular ductwork.
