

Kool

Without heater

Opening heights of up to 3.5m

Features

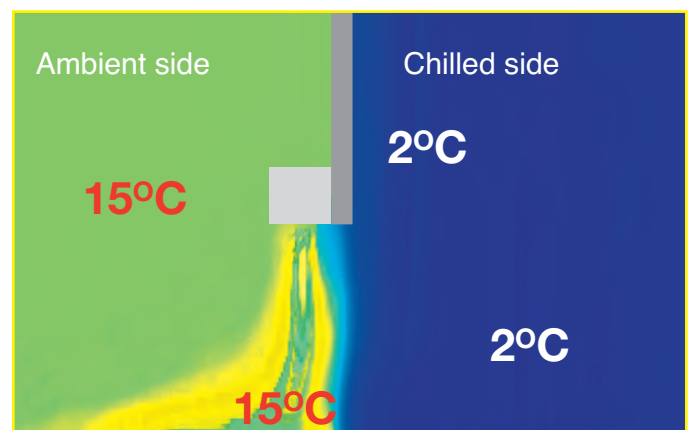

- Specially designed to be installed on doors of cold stores and freezers.
- Self-supporting casing construction made of zinc plated steel, finished in structural epoxy-polyester RAL 9016 as standard. Other colours or stainless steel construction are available on request.
- Low noise centrifugal double inlet fans driven by an external rotor motor with built in thermal protection contact. Provided with five speed selection.
- Perforated inlet grille with large absorbing surface to minimize the air pressure drop. It doesn't need filter.
- Also available with flat micro-perforated inlet grille, more elegant, for commercial doors where heating is not needed.
- Anodised aluminium blow-out vanes, airfoil shaped, adjustable from 0 to 15° each side.
- Control panel and 20m of telephonic cable with fast connectors type RJ45 (Plug & Play) included.
- Optional: Interface to connect to BMS.
